Professional Profile

UX/UI & Product Designer with 9+ years of experience across interaction design, visual design, prototyping, usability testing, and front-end development. Currently working as a Mechanical Engineer & Product Designer at VOL, where I create user-centered digital and physical products. I combine rigorous UX research with thoughtful aesthetics and actively integrate AI-augmented workflows — AI agents, local LLMs, and emerging tools — into design research, prototyping, and automation. Experienced in design systems, cross-functional collaboration, workshop facilitation, and balancing technical feasibility with user needs.

Skills & Expertise

Design: Product Design, Design Systems, Prototyping, Interaction Design, Responsive Web Design, Visual Design, Information Architecture

Research & Testing: UX Research, Usability Testing, Workshop Facilitation, Competitive Analysis, Stakeholder Interviews, Behavioral Analytics

AI & Emerging Tech: AI-Augmented Workflows, AI Agent Workflows, Local LLM Deployment, Midjourney, ComfyUI, AI-Assisted Prototyping

Technical: HTML/CSS/JavaScript, Figma, Astro, Tailwind CSS, Wix, Git, GitHub Pages, 3D Printing, Capacitive Touch Design

Professional Experience

VOL (Volunteer Optical Laboratory) — Product Designer, Mechanical Engineer

Feb 2024 – Present

- Lead UI/UX design for internal tools and product interfaces.
- Design and build physical product components, balancing engineering constraints with user needs.
- Bridge digital and physical product design disciplines in a volunteer-driven manufacturing environment.

Career Break — Full-Time Volunteer — Full-time volunteer supporting Armed Forces of Ukraine

May 2022 – Dec 2023

- Dedicated to full-time volunteer work following Russia's full-scale invasion of Ukraine.
- Developed crisis management, logistics coordination, and operational planning skills under extreme pressure.

HebronSoft — UI Designer, UX Designer

Jun 2021 – May 2022

- Designed and developed user interfaces across the full design-to-development pipeline.
- Led design projects and mentored junior designers, establishing design standards and workflows.
- Collaborated closely with cross-functional teams to deliver cohesive product experiences.

FeliTalk (felitalk.com) — UI Designer, HTML Developer

Dec 2020 – May 2021

- Designed and hand-coded ~90% of client-facing pages (~20 unique templates) for a Japanese-market English conversation platform.
- Extended an existing design system, maintaining visual coherence across the entire platform.
- Adapted typography and layouts for Japanese script (kanji/kana) — a hands-on lesson in cross-cultural UX.
- Delivered via git-based workflow with direct developer collaboration, bridging design and implementation.
- This project marked my transition from HTML developer to UI designer.

Cygnati Group — UX Designer, UI Developer

Feb 2019 – Mar 2020

- Designed and developed interfaces for diverse projects including e-commerce platforms, medical information portals, and mobile applications.

Codemotion Ninjas — HTML5 Developer

Mar 2017 – Jan 2019

- Built responsive interfaces and contributed to front-end development across client projects.

BITECC GmbH / InvestGo24 — Frontend Developer

Apr 2015 – Feb 2017

- Developed responsive landing pages and web interfaces, establishing frontend development foundation.

Selected Projects

CoffeeNanny Lviv Franchise Website

UX/UI & Product Designer

Led the complete digital rebuild — UX audit, stakeholder interviews, Figma design with AI-assisted style exploration, and rapid Wix MVP. Delivered a 20× traffic increase, bounce rate reduction from 90% to ~55%, and 2–4 min average session duration. The franchise expanded from 1 to 9 cities across Ukraine.

Breather Coach — UX Research & Product Diagnostics

UX/UI Designer (sole designer)

Diagnosed critical usability failures in a companion app for the world's first respiratory muscle training device (thebreather.com, 2M+ users). Conducted App Store review analysis, design audit, usability testing, and behavioral analytics that revealed systemic UX breakdowns. Unified design system in Figma and deployed an FDA clinical trial module for real patient studies.

Volunteer Centre County

UX/UI Designer & Product Designer/Manager

Full digital platform for a US 501(c)(3) non-profit connecting PA residents with volunteer opportunities. Delivered stakeholder research, competitive feature matrix, iterative client workshops, Figma design system, and complete UI. Zero post-delivery revision requests. Project delivered on time and on budget.

Capacitive Stamp Loyalty System

Product Designer (Physical & Digital)

Designed a novel physical stamp for touch-screen business identification — conductive 3D-printed binary dot-grid pattern recognized by smartphone capacitive touch. Validated PoC with live coffee shop testing. Combined product design, materials science, interaction design, and 3D printing.

Safety Brochure — Instructional Design

Workshop Facilitator & Instructional Designer

Facilitated cross-departmental workshop to identify root causes of equipment failures. Designed a z-fold comic brochure (device–operator dialogue) placed in every repaired device. Repeat component burnouts

decreased post-implementation.

Education & Languages

- **Education:** Product Design / UI/UX (self-directed & professional experience-based education path)
- **Languages:** Ukrainian (Native), English (Professional), Russian (Fluent)
